Sir:

REQUEST FOR CORRECTED FILING RECEIPT**CERTIFICATE OF TRANSMISSION**

I hereby certify that this correspondence is being facsimile transmitted to the United States Patent and Trademark Office (facsimile number 703 746-9195), on this the 14th day of July in the year 2003.

Michael J. Shea

Applicant respectfully requests that the filing receipt for the subject application be corrected as shown on the attached sheet to include Applicant's claims for priority made upon the filing of the application on April 3, 2000. Specifically, the Preliminary Amendment that accompanied the filing of this application amended page 1 of the specification to add the following paragraph:

—This application is a continuation of Application No. 09/317,980, filed May 25, 1999, which is a continuation of Application No. 08/869,166, filed June 4, 1997, now abandoned, which is a divisional of Application No. 08/493,541, filed June 22, 1995, now abandoned.--

The remarks in the Preliminary Amendment also refer to these prior applications. A copy of the postcard stamped to evidence receipt of this Preliminary Amendment on April 3, 2000 is attached.

Michael J. SHEA
Application No. 09/541,986

This paragraph added to the specification contains specific references to the earlier applications for which benefit is sought (i.e., (1) the identification of the prior application by application number and (2) an indication of the relationship between the (non-provisional) applications). *Because the priority claims are of the proper format and were presented at the time of filing on April 3, 2000, correction of the filing receipt is believed to be appropriate and is respectfully requested.*

The time periods set forth in 37 CFR 1.78(a) are not applicable because the priority claims were properly made at the time of filing. In addition, Applicant notes that these time periods would not apply in any event because this application was filed prior to November 29, 2000. See 37 CFR 1.78(a)(2)(ii)(B).

Respectfully submitted,

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 36 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 600 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."

Any corrections that may need to be done to your Filing Receipt should be directed to:
